Garret:

Can you do me a favor and please copy Jeff Keiser on your correspondence with me. It helps ensure that all of EPA's support contractors receive this information in a timely fashion.

Jim and Paul,

Regarding the date for sampling Area 3, the G-P/AMEC team is thinking that it may be more prudent to begin work the week of 7/15 rather than 7/8. This will allow more time for you to schedule oversight resources and for us to gain the necessary access to residential properties.

Regarding the question on the number of crews we are planning on:

- 1 crew of 2 people to locate and mark (3 to 4 field days);
- A second crew to collect and process samples at the sample location (10 field days).

Please let us know if this will work for you. Thx and have a great weekend.

Garret.
